

STATISTICS

January 2010

1 Consumer Price Index (CPI), All Items, 2002 = 100

Month	CPI	Annual Rate of Inflation	
Whitehorse			
Jan '10	113.9	0.8%	(Jan '09 to Jan '10)
Dec '09	113.4	-0.4%	(Dec '08 to Dec '09)
Jan '09	113.0	2.4%	(Jan '08 to Jan '09)
Canada			
Jan '10	115.1	1.9%	(Jan '09 to Jan '10)
Dec '09	114.8	1.3%	(Dec '08 to Dec '09)
Jan '09	113.0	1.1%	(Jan '08 to Jan '09)

Comparing the month of January 2010 with January 2009, the **annual** rate of inflation in Whitehorse (0.8%) was 1.1 percentage points lower than the **annual** rate of inflation in Canada (1.9%).

On a **monthly** basis, in Whitehorse (figures for the Yukon are not available) overall prices increased 0.4% from December 2009 to January 2010.

Major **monthly** increases were seen in the following CPI commodities:

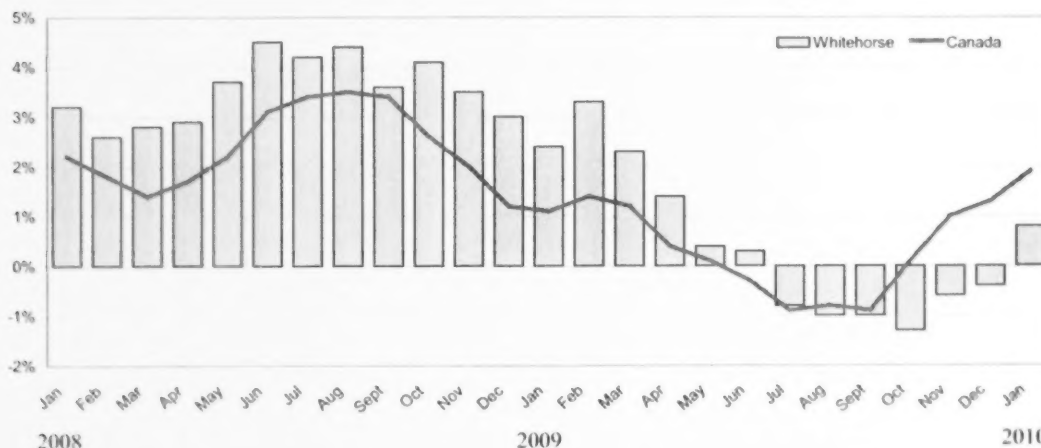

- gasoline
- fuel oil and other fuels
- men's clothing

Some of the major decreases partially offsetting **monthly** increases were:

- fresh fruit
- travel tours
- other food preparations

Annual increases for Whitehorse in January were in gasoline, fuel oil and other fuels, and purchase and operation of recreational vehicles. Offsetting some of these **annual** increases were decreases in electricity, mortgage interest cost, and homeowners' home and mortgage insurance.

The Consumer Price Index (CPI) is produced on a monthly basis by Statistics Canada. The data used to determine the CPI are collected by survey and the results are released in Statistics Canada's publication, *The Consumer Price Index*, catalogue no. 62-001. The Index is used to determine price change (inflation or deflation) in a given city or province over time. In order to calculate the inflation/deflation rate in an area, an index for two time periods is required. The percentage change in this index from one point in time to the next is known as the 'rate of inflation' (or 'rate of deflation' if there is a decrease).

The current official time base of the Consumer Price Index (CPI) is 2002 = 100.
